

1. [Cap-prevented recombination between terminal telomeric repeat arrays \(telomere CPR\) maintains telomeres in Kluyveromyces lactis lacking telomerase](#)

McEachern MJ, Blackburn EH.
Genes Dev. 1996 Jul 15;10(14):1822-34.
PMID: 8698241

2. [Telomeres shorten during ageing of human fibroblasts](#)

Harley CB, Futcher AB, Greider CW.
Nature. 1990 May 31;345(6274):458-60.
PMID: 2342578

3. [Telomere dynamics, end-to-end fusions and telomerase activation during the human fibroblast immortalization process](#)

Ducray C, Pommier JP, Martins L, Boussin FD, Sabatier L.
Oncogene. 1999 Jul 22;18(29):4211-23.
PMID: 10435634
